Report Lost or Found

WHAT YOU CAN DO

Built to Help Pets Get Home Faster

Register your pet

Create a permanent pet profile with photos, identifying details, medical notes, microchip information, emergency contacts, and a shareable QR code.

Report a lost pet

Create a lost pet report in minutes. Add photos, last known location, contact preferences, and key details to help others recognize your pet.

Report a found pet

Found a pet? Submit a report, upload photos, and help connect that animal to existing lost reports and registered profiles.

See possible matches

RescueNet360 surfaces possible matches between lost and found animals using confidence levels and human review.

Share faster

Pet profiles and lost reports are easier to share with shelters, rescues, neighbors, and community groups.

OWNER TRUST

Your Pet's Information Stays With Your Pet.

Microchips are helpful, but they are not the full story. Photos, markings, medical notes, emergency contacts, and recent updates also matter.

RescueNet360 gives your pet a living profile that supports faster action when time matters.

PRIVACY

Designed With Privacy in Mind

Your private contact information should not be exposed publicly to get your pet home. RescueNet360 is designed to support safe communication, controlled sharing, and better reunification without forcing owners to post personal details everywhere.

Register Your Pet Before You Need It.

Create a free account in minutes. Be prepared before anything happens.
