

RescueNet

CONNECT • PROTECT • SAVE LIVES

Helping Shelters & Rescues Work Smarter, Not Harder

A new platform designed to connect animal data, improve coordination, and help more pets get home safely.

! THE CHALLENGE

Right now, animal welfare teams are dealing with:

Scattered records across multiple systems

Limited visibility across organizations

Time lost tracking down information

Missed opportunities for faster reunification

✓ THE SOLUTION

RescueNet brings everything together in one place:

Pet identity and history tracking

Lost & found reporting + matching

Shelter and rescue workflows

Foster and transport coordination

Shared visibility across organizations

All centered around one goal: better outcomes for animals.

BUILT FOR SHELTERS AND RESCUES LIKE YOURS TO:

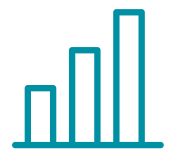

Save time on intake and tracking

Improve communication across teams

Increase reunification success

Make faster, more informed decisions

WE'RE CURRENTLY LOOKING FOR A SMALL GROUP OF PILOT PARTNERS.

No cost. Just collaboration.

As a pilot, you'll get:

Free early access to the platform

A chance to shape how it's built

Direct input into features and workflows
